SPARTAN ZERO TURN MOWERS - MADE IN USA

SPARTAN SRT

The Spartan SRT Series offers the PRO, HD, and XD version mowers to accommodate small and large commercial jobs. The SRT Series has everything the RT is packed with: GT Trac for incline traction, the Vibration Control Deck System, easy touch brake system, and ergonomic cockpit. With one exception...the SRT has even more.

The most prominent feature is Smart Ride Technology. All SRT Series mowers are equipped with an improved Smart Ride Technology package. Middle and back Elastomer TecnPak® and front neoprene cushioning absorb any shock or jostling. This, along with our soft ride rear radial tires and our frame design with neoprene torsion bar makes the SRT the smoothest riding mower on the planet. It's like riding in a sports car, and it cuts like a dream. Go ahead, try it out. It's not like any other mower out there. Experience the difference.

Starting price is \$6,799* making the SRT Series the most decked-out mower line on the planet at an incredibly affordable price. Questions about any of the key features and components?

RIDE:

- GT-TRAC FOR THE BEST TRACTION ON INCLINES. PRECISION WEIGHT DISTRIBUTION, BALANCE, AND CONTROL
